

KNOW What the Payors Know...
USE What the Payors Use...
THINK Like a Payor!

The iVECoder[®] decisive code tool is built on the same claims intelligence of PCG's Virtual Examiner[®] claims review engine that healthcare payors worldwide have been using for 25 years.

Providers **finally** have intimate access to that same payor intelligence. Through the cloud-based software subscription, providers can now ensure even the most complex claims are clean and accurate before they are submitted to the payor.

Leveling of the playing field between providers and payors allow physicians, hospitals and ambulatory surgery centers to increase revenue by reducing the coding research necessary to submit payable clean claims.

By leveraging this proven platform, iVE Coder[®] now offers a range of benefits to providers by allowing them to:

- ✓ Ensure Billing Accuracy
- ✓ Reduce Provider Risk
- ✓ Maximize Reimbursement
- ✓ Improve Appeals
- ✓ Calculate Pricing
- ✓ Simplify Compliance

When it comes to claims, accuracy is everything. With just one click, iVECoder® shares all the answers you need and instantly displays exactly how payors see your claim.

Get Quick Answers for Cleaner Claims – Resolve your coding challenges through instant access to accurate answers. iVECoder® leverages the proven Virtual Examiner® platform trusted for decades by hundreds of leading healthcare payors to review the accuracy of incoming provider claims. With iVECoder®, one page with all the answers you're looking for is easily at your fingertips.

Comply with Today's Standards – iVECoder® and its internal algorithms were developed using guidelines from the American Medical Association (AMA) and CMS, along with specific state Medicaid or California Medi-Cal coding rules as appropriate. The coding knowledgebase is updated on a daily basis to assure compliance with the frequent business and legislative changes.

Code, Bill and Appeal Smarter – With iVECoder® in your corner, you know you have a strong offense and defense. As the Office of the Inspector General (OIG) remains vigilant in its effort to root out healthcare fraud, it is more important than ever to ensure you monitor billing and remain compliant. Moreover, iVECoder® provides a sound foundation for appeals and Provider Dispute Resolutions (PDRs) as needed.

Choose the ONLY coding and billing platform that empowers providers with true PAYOR intelligence.

- ✓ More than 45 million edits
- ✓ Fee schedules with UCR
- ✓ Rule rationale in laymen terms
- ✓ EHR code verification
- ✓ All the codes you need
- ✓ No installation – just log in and start saving money!

The claims process can take a toll on a medical practice. Even with the existing advances in claims technology to make things easier on billers, stringent claims adjudication, payer denials, and the requirement of constant resubmissions can significantly degrade a practice's ability to remain financially competitive.

By reporting claims accurately from the start, healthcare providers are better equipped to reduce the incidence of claims denials so they can get paid faster.
